SUMMARY

Detail-oriented **QA Engineer** with **2 years of experience** in **manual and automated testing**, specializing in **SaaS-based** platforms. Skilled in designing **test strategies**, executing **cross-browser and API tests** using tools like **Selenium (Java)**, **Postman**, and **Docker**. Strong experience in **test planning**, **regression automation**, and ensuring backend and frontend system reliability.

SKILLS

Automation Tools & Frameworks

Selenium Appium Playwright Playwright PyTest TestNG

Backend & API Testing

Postman Microservices API Testing Newman

Programming & Scripting Languages

Python Java SQL Hybrid Framework

Load & Performance Testing

JMeter Newman (Load)

Project & Test Management

Jira Test Cases Agile Manual Testing Web Testing

DevOps & Test Infrastructure

GitHub Apache Maven

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer

Doqfy Internet Pvt Ltd

JUNE 2023 – Present

- Designed and executed end-to-end test plans and test cases, covering both frontend and backend features; automated regression scenarios using **Java**, **Selenium**, and a **Hybrid Framework**, generating execution logs and detailed test reports.
- Performed cross-browser and cross-platform testing using **Selenium Grid** and **Docker containers**, ensuring compatibility and stability across environments.
- Conducted **API testing** using **Postman** by validating collections for functionality, followed by **load testing** with **Newman CLI** to assess performance; collaborated in an **Agile environment**, participated in sprint cycles, and used **Jira** for task and defect tracking to ensure continuous delivery and high product quality.

Analyst (Internship)

BZAAR

JAN 2023 – APRIL 2023

- Analyzed business data using **SQL**, **Excel**, and **Spreadsheets**, delivering actionable insights through dashboards and reports built with **Looker Studio**, and **Excel charts**.
- Collaborated with cross-functional teams to develop and implement **data-driven strategies**.

PROJECT EXPERIENCE

Contract Execution (CE) – SaaS Platform

- Performed functional and integration testing for **eStamping**, **eSigning**, and approval workflows, ensuring compliance and smooth execution. Generated execution logs and HTML/XML test reports for defect tracking and validation.
- Conducted **API testing** using **Postman** and **load testing** via **Newman CLI**, validating request/response flows and analyzing application performance with **HTML reports**.

Contract Life Cycle Management (CLM) - SaaS Platform

- Automated regression and functional tests using Selenium with Java in a **Hybrid Framework**, managed with **Apache Maven**, and executed across browsers using **Selenium Grid** and **Docker**.
- Performed manual and automated testing for contract creation, template selection, collaborator flows, and UI validation, ensuring reliable lifecycle management.

EDUCATION

Bachelor's Degree in Civil Engineering

2017 – 2021

Don Bosco Institute of Technology
